About us

The Designers Studio is a vocational training centre providing inspirational, career-focused education in interior design, fashion and the fine arts in the context of a new and broader way of thinking about the real value of design. We believe in a creative and open-minded approach to teaching, meaning that students can expect to be encouraged to think outside the box when it comes to their projects

We encourage collaboration, enterprise and an entrepreneurial approach, and an understanding of human responses. With a view to future proofing career opportunities for our graduates, students are motivated to embrace complexity and ambiguity and challenge assumptions, to see not just what is but what might be.

Opportunities for students to work closely with the wider community and contributions on closely related topics such as art, architecture, psychology and philosophy are included in our programmes wherever possible. We make every effort to provide a highly supportive environment for students and staff.

Why Study in Dubai?

If you decide to study in Dubai, you will be learning in a city that is constantly growing and evolving. Dubai is part of the largest and most popular metropolitan area in the UAE.

Studying in Dubai as an international student will improve your career prospects and offer you opportunities worldwide. Dubai is one of the world's leading regions in the design world; hence, you can study while exploring and experiencing everything the city has to offer. This is a truly unique experience allowing students to immerse themselves into the world of design, arts and culture while studying for their Diploma.

Known for its skyscrapers, architecture, fashion and innovation, Dubai makes for a popular study destination. It is a truly cosmopolitan city, with so much to offer in terms of design, therefore attracting students from all over the world

What makes our institute so unique?

We are the only educational studio in the Middle East offering this bespoke learning and travel experience. Not only will students be able to explore the stunning landscape that is Dubai, but learn in the central arts hub, The Courtyard, fully immersing themselves into their design journey.

The Designers Studios reputation stands for itself with our career focused courses, hands on training, expert tutors and supportive learning practices. We believe that there shouldn't be an age limit on learning and therefore are focused on adult education. We have award winning educators, and small class sizes which allows us to fully support our students educational journey. Each of our courses allows you not only to learn in the classroom but also experience the industry as a whole, not only learning soft skills, but technical in terms of computer programming and more. This makes our graduates sought after candidates worldwide with their professional portfolios, hands on experience and technical skills.

A woman with dark hair tied back, wearing a white button-down shirt, is smiling and holding a large white portfolio. The portfolio has the logo 'MAD Interiors' and 'A LUXURY DESIGN STUDIO' printed on it. She is standing in a design studio or office. The background is a wall covered with various design samples, including photographs of outdoor furniture, interior spaces, and material swatches. One photo is labeled 'Tina & Josh - Private Terrace Layout'. There are also some plants, including a large green Monstera plant on the right. The overall atmosphere is professional and creative.

the
worlds
leading
designers"**

The Diploma

Throughout the Diploma, students will cover all facets of Interior Design to Commercial & Computer Programming needed in the market. Students will be given documentation, gain supplier lists, learn how to charge, make their own websites and promotional material and more. By the time students receive their Diploma, they will be armed with an eye-catching portfolio and skills required to make them sought after candidates for internships and employment, they will even be able to work with their own private clients.

The internationally recognized Diploma is accredited by the KHDA (Knowledge and Human Development Authority) with a UK accredited Level 2 Diploma in Creative Techniques- Interiors with qualification number 7157-13.

Units of Study

Residential Interior Design 1

This course focuses on the fundamentals of designing for residential interiors & introduces students into the interior design field. Throughout the lessons students will develop their skills, enthusiasm and flair for Interior design producing scaled hand drawings and a presentation.

Moodboards

This course will give students the practical skills of making mood and sample boards like a professional designer. This course will also cover the basics of Powerpoint.

Residential Interior Design 2

Students will be introduced to a large villa plans and work on multiple spaces in a home. The key learning will focus on technical drawing such as elevations, reflected ceiling plans, electrical looping and floor finishes plans.

Residential Interior Design 3

The focus of this module is technically complicated spaces such as Kitchens and Bathrooms. Students will learn about the ergonomics and theories behind both spaces with a focus on materials and specifications.

Commercial Interior Design 1

Students will be introduced to the world of commercial interior design with a focus on Restaurant and Hotels. Students will learn about the ergonomics and theory's behind both spaces with a focus on materials and specifications.

AutoCAD Level 1

AutoCAD is a powerful programme which allows designers and architects to create 2D computer aided designs. This course is intended to familiarise students with the different 2D tools available and to teach them the foundations of the software.

SketchUp Level 1

SketchUp is a 3D modelling programme from google in which students can transform 2D drawings into stunning 3Ds. SketchUp helps visualize designs and make them a reality.

Photoshop Level 1

Photo-edit real pieces of furniture by changing colours, removing backgrounds, balancing saturation and glare etc. Photoshop is a fantastic tool to generate realistic renders of whole projects in a short amount of time, giving a realistic feel to plans and elevations.

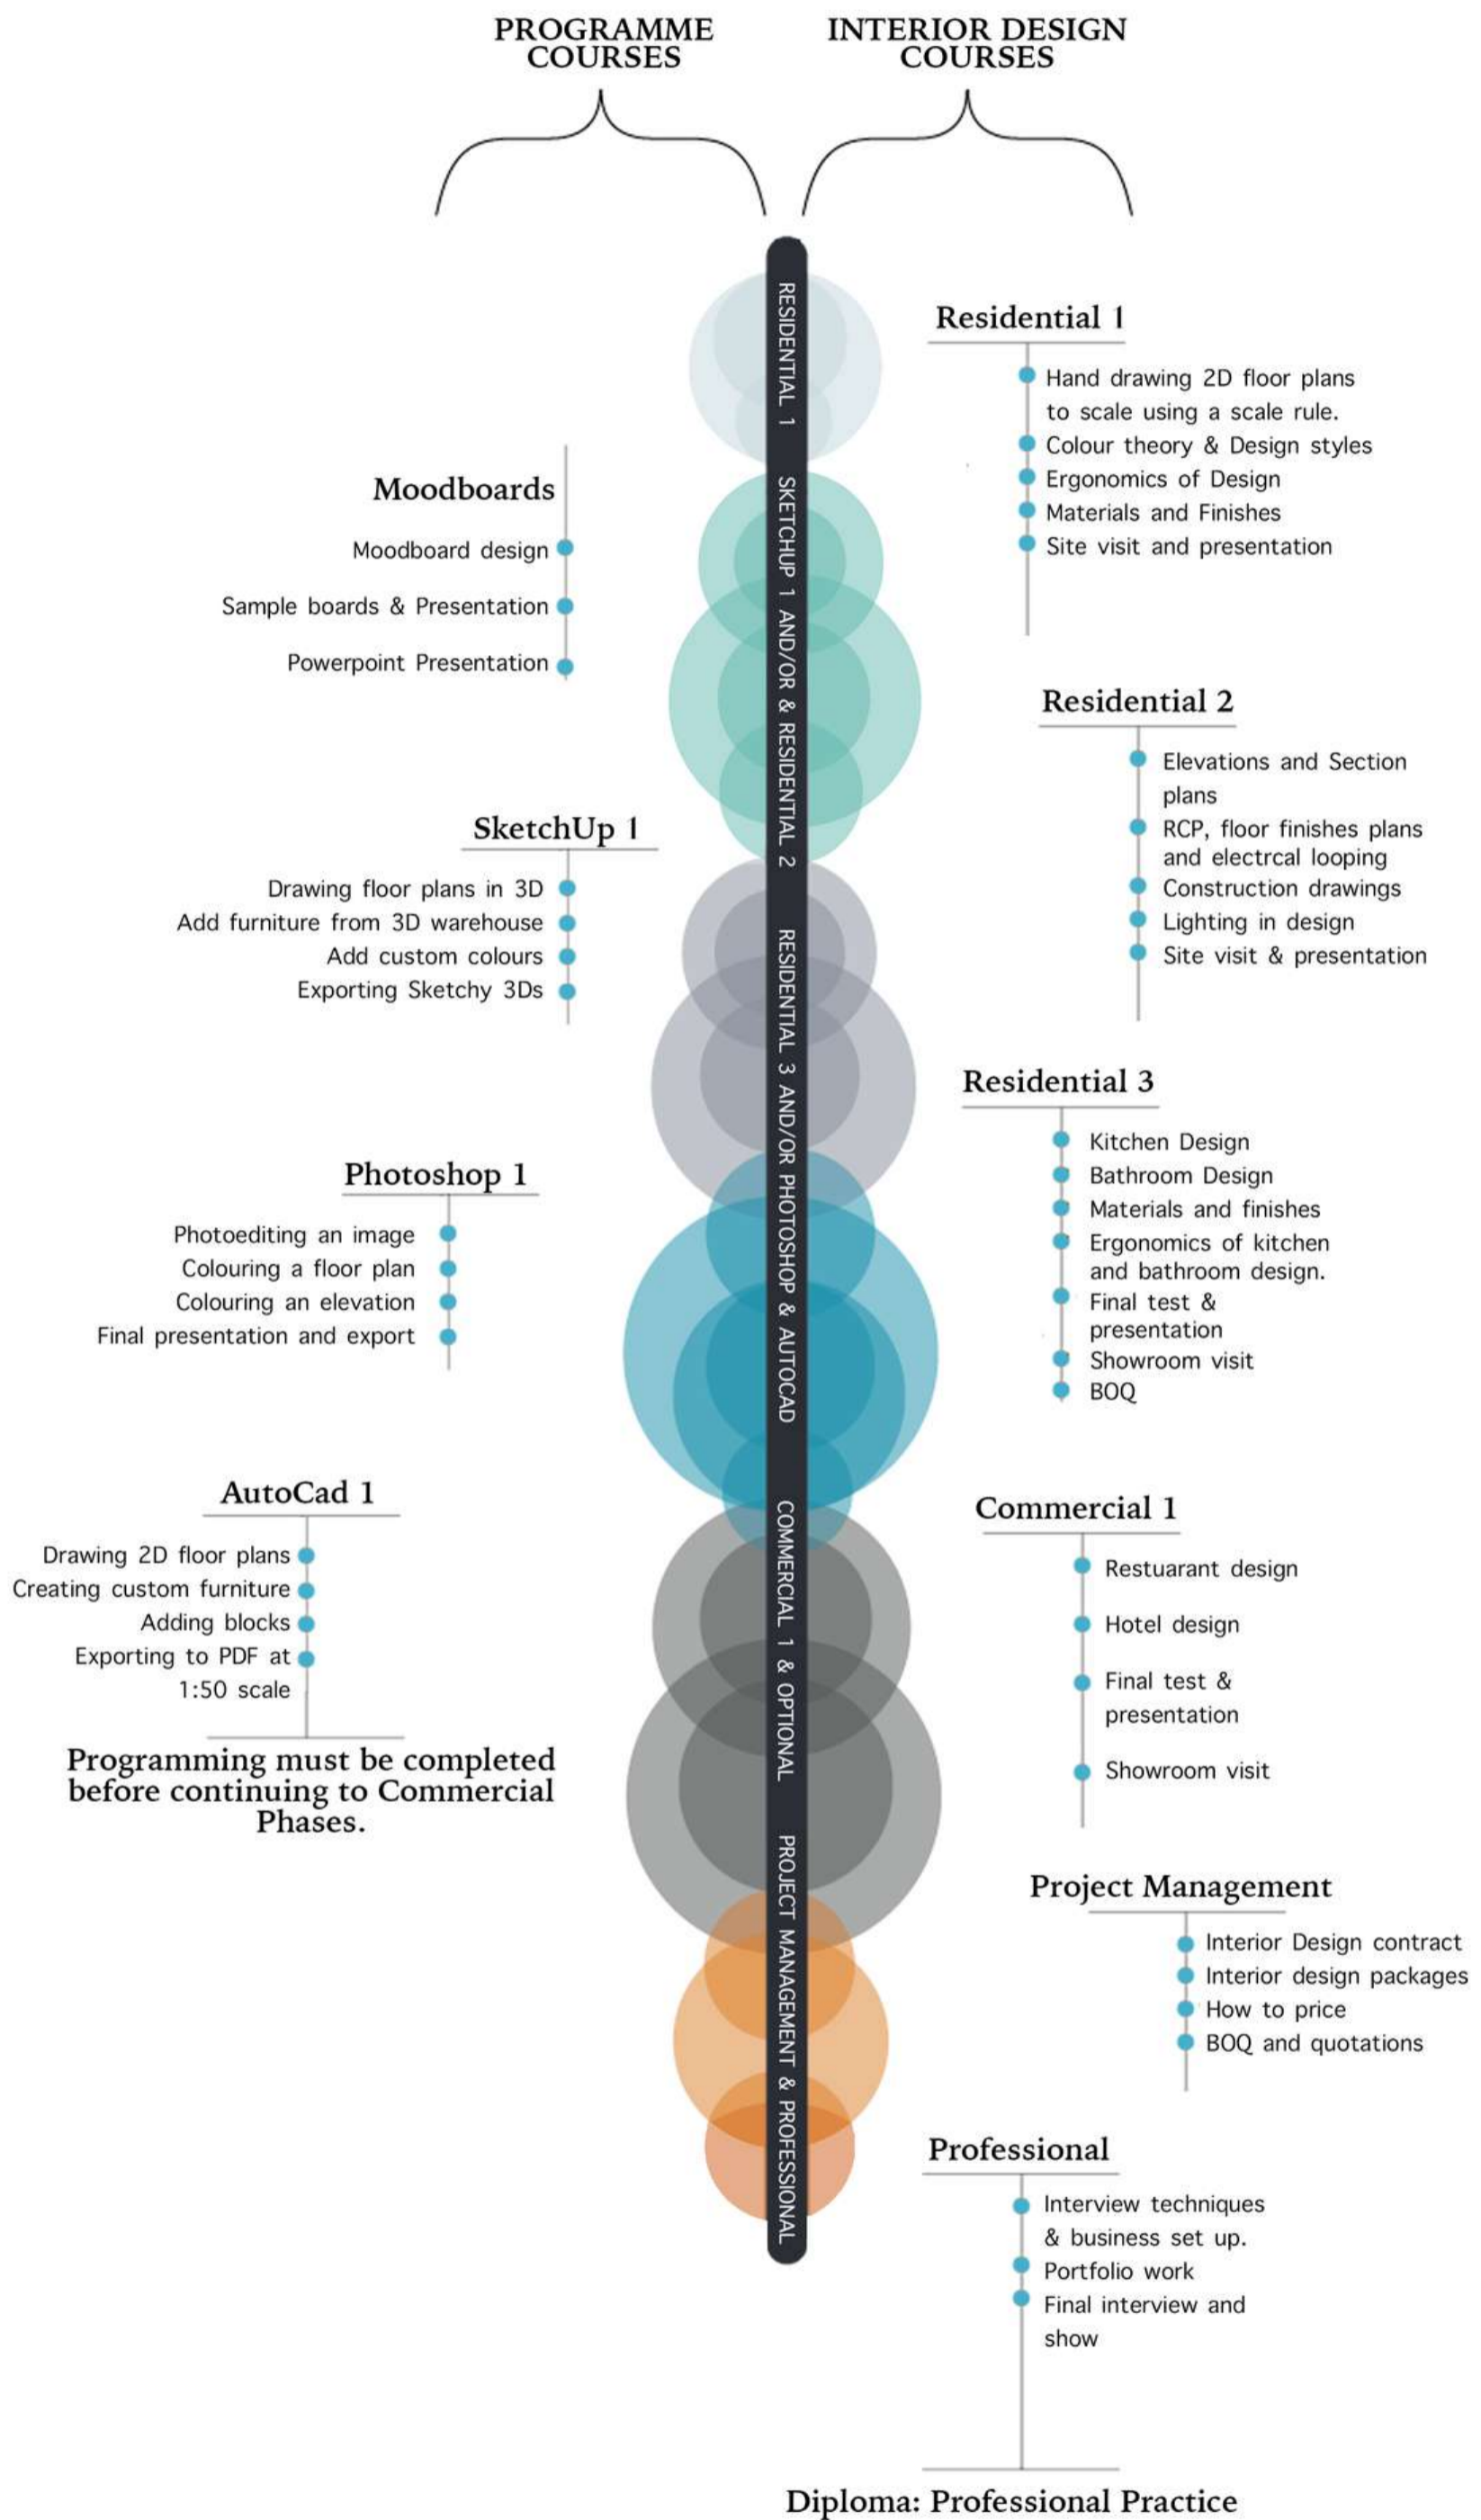

Project Management

This course is for interior designers that would like to understand the processes of managing a project on their own and promoting their business.

Professional Portfolio

This advanced course is focused on portfolio work, interview skills, social media, website design and interior decorative techniques. This course is structured differently with in studio classes, portfolio development with their tutor and a final interview at the end of the course with an industry professional.
